TECHNICAL SKILLS

Programming Languages:
Java (Proficient), Python, C, C++
Framework:
Spring Boot
Web Development:
React.js, Angular, Node.js, Express.js, MongoDB, HTML5, CSS3, Tailwind CSS
Core Computer Science:
Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks
Tools & Platforms:
Git, GitHub, VS Code, Postman, AWS (Cloud Practitioner)

CORE COMPETENCIES

- Object-Oriented Programming (OOP)
- Data Structures & Algorithms
- REST API Development
- Full-Stack Web Development (MERN)
- Backend Development (Node.js, Express)
- Database Design & Optimization (MongoDB)
- Machine Learning Fundamentals
- Problem Solving & Debugging

CERTIFICATIONS

- AWS Cloud Practitioner Essentials
- AWS Cloud Quest – Cloud Practitioner
- NPTEL Programming in Java – Silver Medal, 82%
- TCS iON Career Edge – Young Professional

LANGUAGES

English, Hindi

PROFESSIONAL SUMMARY

I am a Computer Science postgraduate with strong proficiency in Java and problem-solving. I have hands-on experience in full-stack development using MERN stack and have built multiple real-world projects including an e-commerce platform and AI-based applications. I am passionate about software development and eager to contribute to scalable and efficient systems.

EDUCATION

Master of Science (MSc) – Computer Science
Dayalbagh Educational Institute, Agra
2024 – 2026
CGPA: 9.619

Bachelor of Computer Applications (BCA)
St. John's College, Agra
2021 – 2024
Percentage: 82.5%

PROFESSIONAL EXPERIENCE

Web Developer Intern
ATFLabs, Agra
April 2024 – May 2024
- Developed and maintained responsive web applications using React.js and Node.js
- Collaborated with team members to deliver client projects within deadlines

Customer Support Executive (Flipkart Process)
Teleperformance India (Remote)
June 2024 – July 2024
- Resolved customer technical and order-related issues efficiently
- Strengthened troubleshooting, teamwork, and time-management skills

PROJECTS

AI Health Insight – AI Symptom Checker
- Implemented symptom-based disease prediction using machine-learning models

Smart Student Portal (Admin & Student Panels)
- Built a MERN-based web application with JWT-based authentication
- Implemented role-based access for Admin and Student dashboards

Agricultural Research Tool using XAL (MSc Major Project)
- Developed an analytical tool for agricultural modeling and research optimization
- Utilized XAL libraries and dataset pipelines for data analysis

E-Commerce Web Application
- Developed a full-stack MERN e-commerce platform with authentication and authorization
- Implemented product listing, shopping cart, and admin dashboard

TCS – Initial Learning Program (ILP), Completed
